The rigor of social sciences motivates me, as it allows me to combine data with social theory. My approach is multidisciplinary. I also appreciate consistency: details are important to me. My values have oriented me to focus on social responsibility and sustainability.

Experience

Academic Consulting, Doutora Tese
04/2023 – Present

- Consulting on research projects in the humanities and social sciences
- Adaptation of technical standards for academic work and text editing
- I developed my brand from the ground up by conducting thorough research
- I have gained the trust of my customers, which is evident from their reviews

Researcher, Ph.D. in Social Sciences, UNESP, Brazil
03/2019 – 03/2023

- Research on the sociological theory
- I participated in more than 15 events
- I published two papers, five conference proceedings, and one book chapter
- I analyzed more than 100 archives documents during my international mobility at EHESS-Paris
- I edited three completed editions of the Journal "Cadernos de Campo"
- I did three teaching internships and assisted over 100 students
- In 2024, Editora UNESP will fund the publication of my thesis in book format

Researcher, MSc in Sociology, UFG, Brazil
03/2017 – 02/2019

- Research on the sociology of literature
- I was in 7 events with oral and written communication
- I have written an article that is currently my most popular piece of content
